

Children's summer holiday programme

Birmingham: Monday 25th July – Thursday 1st September

Our summer programme is filled with sensory exploration, fun and activities for your little ones!

What?

All sessions focus on building play, communication, and life skills.

Our staff will guide activities and help with support, strategies and information.

Each session ends with 'stay and play' so you can connect with other families in your area.

Who?

Our programme is for families of children with complex disabilities aged 0-8.

How?

Book now by scanning the QR code on your mobile. You'll be taken to our website where you can browse and book your chosen sessions.

You can email connectandplay@sense.org.uk to talk to one of our play leaders about the best session for you and your child.

Your place will be confirmed by a member of the team.
